TOKIO OFFICIAL REPORTS

RUSSIAN ACCOUNT OF RECENT
SKIRMISHES.

TOKIO, Wednesday, 9 p. m. June 21.—It is officially announced that a Japanese detachment in northern Korea has completely occupied Kangseng on Tuesday. A few thousand Russians with artillery retired toward Suhsung, twelve miles northward.

TOKIO, June 21, 4 p. m.—The following official dispatch was received today from the headquarters of the Japanese army in Manchuria:

"In the direction of Welyanpamen our detachment occupied Lianbauchien June 18 without encountering resistance. It also occupied Yengmulin, twenty miles northwest of Welyanpamen, and drove the enemy back on his positions on the Kien road.

"Our casualties were four men wounded. The enemy left ten corpses, including the body of an officer, and three horses killed. Our forces captured one machine gun and one horse. The enemy's loss must have been heavy.

"Our forces advanced on the Kien road after a vigorous fight in the morning of June 19, dislodged the enemy from Pienhangchung, ten miles southeast of Hsihienchuan and occupied at 8:30 the same morning Luitakou, sixteen miles north of Changtu."

REPORT OF LINEVITCH.

Russian Outposts Retired Under Artillery Fire.

St. Petersburg, June 21.—General Linevitch, in a dispatch to the emperor dated June 19, says:

"At 4 o'clock this morning the Japanese commenced an offensive at the front west of the railway. Sinitshchouan was occupied by strong detachments of Japanese.

"On the east of the railway the Japanese infantry at 2 in the morning of June 19 began to advance in the direction of Hsihienchuan. Their advance was stopped at 9 a. m.

"The Japanese on the Mandarin road also commenced an offensive at 2 in the morning. Toward 9 o'clock our advance posts retired slightly. The Japanese artillery opened at 10 o'clock and advanced posts retired. Their advance at noon the Japanese occupied the village of Siaocheuchsi near Yaomaling."

MAY HAVE COMMENCED.

Bloody Battle Confidently Expected in Manchuria.

St. Petersburg, June 21, 12:58 a. m.—The public gathering in the city today for negotiations for an armistice are, on foot, believes that a great battle in Manchuria is now beginning, and official dispatches from the front bear out this idea that the Japanese have commenced their main advance, though as yet there have been no heavy collisions.

The Japanese, following the checking of the movement to the west, are now pushing forward along the Kien road and the Manchurian and Mankai roads, their front now stretching from Singchunguan, fifteen miles north of Changtu, and east through Shunamitoku station to Yaoma pass, on the Mandarin road.

The Russians retreated the advanced positions with serious resistance and are evidently retreating to their first line of entrenchments, which is believed to extend the railroad for thirty-four miles further north. They have a number of other fortified positions before reaching the railroad line, and are fighting a bitter battle at Changtu, eighty miles in the rear.

Lieutenant General Linevitch evidently has hesitated to issue any press messages, indicating that hostilities have entered on a serious phase.

If negotiations for an armistice are on foot they must bear immediate fruit in order to prevent a battle, perhaps greater in its casualties than that of Mukden.

GARDEN PATCH QUARREL.

One Italian Woman Shoots and Mortally Wounds Another.

Walla Walla, Wash., June 21.—Mrs. Frank Alasio was shot and mortally wounded today by Mrs. Pauline Rigati. The shooting occurred in the kitchen of the Alasio home, which was occupied jointly by the two families. Trouble over a garden patch has estranged the families and the shooting is supposed to have been the outcome of the difficulty. There were no eye witnesses. The sheriff is searching for Mrs. Rigati. The women are Italians.

GIVEN LIGHT SENTENCE.

Helmsingfors, Finland, June 21.—M. Atti Hjalmar Rutkile, convicted for murder, was shot and seriously wounded Governor Miasoroff of Viborg, March 20, was sentenced today to twenty-six months' penal servitude.

SUGAR GOES DOWN.

New York, June 21.—All grades of refined sugar have been lowered 30 cents per hundred pounds, making standard granulated \$5.35.

GREAT GRAFT THE EQUITABLE

Scorching Report of Superintendent of Insurance Hendricks.

PROSECUTION MAY FOLLOW

ALEXANDER AND HYDE THE
CHIEF OFFENDERS.

ALBANY, N. Y., June 21.—The report of Supt. Francis Hendricks of the state insurance department to Governor Hiss upon his investigation of the Equitable Life Assurance society, was made public here and in New York tonight.

It is described in the title as a "preliminary report," and it sharply criticizes the management of the society, as well as the new trust arrangement for voting the stock agreed upon by Thomas F. Ryan and the three trustees designated by him.

In conclusion, Superintendent Hendricks said:

"No superficial measures will correct the existing evils in this society. A cancer cannot be cured by treating the symptoms. Complete mutualization with the elimination of the stock to be paid for at a price only commensurate with its dividends, is in my opinion, the only sure measure of relief."

Severe Arraignment.

James W. Alexander, president, and James H. Hyde, first vice president, respectively, were severely arraigned yesterday by Chairman Morton, who operated Mr. Hendricks' findings that the policyholders, who are the real owners of the charges against him. Mr. Hendricks says it is an open question whether the directors and the other officers and directors who participated with him in the transactions of the society, and the trustees of the insurance company, are not disqualified under section 36 of the insurance laws, from being officers and directors of the society.

The report characterizes these transactions as unlawful, and says that the directors and the other officers and directors who participated with him in the transactions of the society, and the trustees of the insurance company, are not disqualified under section 36 of the insurance laws, from being officers and directors of the society.

A surprising feature of the presentment is that the directors of the Western National Bank of New York with the organization of the Mercantile Safe Deposit Company, and the directors of the Equitable Life Assurance Society, are not disqualified under section 36 of the insurance laws, from being officers and directors of the society.

The relations of the Equitable and its subsidiaries to the directors of the Western National Bank of New York with the organization of the Mercantile Safe Deposit Company, and the directors of the Equitable Life Assurance Society, are not disqualified under section 36 of the insurance laws, from being officers and directors of the society.

Missing.

Barber and porter of the combination car.

Mentor, O., June 21.—The Twentieth Century limited, one of the fastest trains in the world, ran into an open switch on the Mentor station while traveling at the rate of a mile a minute tonight. Eleven people were killed and sixteen injured, some of them fatally.

Mentor is about twenty-five miles east of Cleveland.

At this time the officials are unable to account in any way for the accident.

The train pulled out of Cleveland with five cars, including four Pullman cars and a buffet. The combination car was burned completely.

Horribly Mangled.

A Solar Plexus.

MORE BLOODSHED IN POLAND.

Lodz, Russian Poland, June 21.—Eighteen persons were killed and 100 wounded tonight by volleys fired by dragoons and Cossacks on a procession of 50,000 workmen which had been organized as a demonstration against the government.

The demonstration had been quietly arranged. At 8 o'clock the workmen, 50,000 strong, with thirty red flags, marched through Piotrkowska street shouting "Down with despotism." They gathered in the old market place, where speeches were made by socialists.

Up to this point the police had not interfered. At 9 o'clock the procession re-formed and was marching up Główna street, when suddenly the Cossacks and dragoons rushed from the side streets and fired a number of volleys. The crowd fled panic-stricken, leaving eighteen killed and 100 wounded.

PARK RESIGNS AS BRIGADIER

Result of Trouble Now Centering Around Adjutant General Bowman.

OTHER OFFICERS MAY QUIT
SAY THEY WILL NOT SERVE WITH LATTER.

TROUBLE in the National Guard of California is creating a crisis yesterday when Brigadier General Samuel C. Park tendered his resignation to Governor John C. Culver and a verbal communication was made to the governor by the line officers requesting the removal of Adjutant General James M. Bowman, familiarly known to the members of the guard as "General Pomposity."

For months the situation has been serious. Since the resignation of Brigadier General Park's resignation, the entire organization has been in a disorganized condition and the line officers and men defied the general orders and refused to take part in the parade.

Brigadier General Park's resignation broke into public notice yesterday. Since that time the guard has been in a disorganized condition and the line officers and men defied the general orders and refused to take part in the parade.

It is understood that the line officers in his communication to Governor Culver that it was time his resignation was tendered. It is further stated that unless the demands of the line officers are acted on by Governor Culver, the entire line staff of officers will resign.

Resignation Not Accepted.

Governor Culver said last night that no action had been taken in regard to the resignation of General Park, but he refused to state whether or not he had tendered his resignation to the governor.

Adjutant General Bowman stated last night that he had not been asked to resign, but that he was in a position to do so if he so desired.

Many Officers; Few Privates.

Difficulties commenced about three years ago in the National Guard of California when the governor brought the national guard into line as the first reserve army. The difficulties have been increasing ever since.

Adjutant General Bowman stated last night that he had not been asked to resign, but that he was in a position to do so if he so desired.

Light is Cheaper.

RAPID TRANSIT TO SMELTERS

Suburban Lines Assured for Salt Lake Valley.

ROAD TO BINGHAM ALSO

MEETING OF GREAT IMPORTANCE HELD NEXT WEEK.

A MEETING of eastern financiers and local promoters will be held in Salt Lake City early next week which, it is believed, will mean great things for the development of the Salt Lake valley.

The meeting will be held for the purpose of working out the details of the suburban lines that are to connect this city with Murray, Bingham Junction and the smelters on one side of the valley, and Salt Lake City and Bingham on the other.

The money necessary for carrying out these plans has been secured. It is given out. Nothing remains but to enter into the details of the lines, let the contracts and get to work. The east side line, known as the Salt Lake Suburban, will be a 32-mile line with 14 stations at the intersection of First South and Second East streets, runs down Second East to Ninth South, and from there it will run over a private right of way in a southeasterly direction past Calder's park, through Murray, Bingham Junction and to a sugar beet farm in the valley.

The main line below Murray and run off into the Mill Creek country. It will connect the Mill Creek country and there one of the finest resorts in the entire state is to be built up. The spot has great natural beauty; it has all the advantages of the best canyon resort in the state and will be within an hour's ride of the city.

From the city street line will be over a private right of way so that fast time will be made. Double track the full length of the line will also add materially to the speed that can be made. It is now thought that a rate of 10 cents can be made from the smelters to the city.

Plans for Bingham Line.

The Bingham line is part of the same general scheme. It connects the West Side Rapid Transit that now starts at the intersection of Second South and First West streets, and runs to the Jordan Park beyond the city limits. This will be continued from its present terminus in a southeasterly direction to Bingham Junction and Salt Lake City, understanding that a rate of 2 cents will be made between Salt Lake and Bingham.

The faith of the men who are putting up the money for these enterprises is based upon the certainty that Salt Lake valley is to be the greatest smelter center in the world, and that Bingham canyon is destined to be the greatest copper camp in the world. This will make the Bingham line one of the most important lines in the state, and the great industries of the valley grow. Ultimately the two lines will be connected at the city limits of the county, forming a complete loop.

Will Ask Bids Soon.
